**PIONEER WASHER.**
**E. G. BOLTER,**
AGENT FOR OREGON AND WASHINGTON TERRITORY.

THIS CELEBRATED WASHING MACHINE IS now for the first time introduced to the Oregon public It is unrivalled for its simplicity, durability and the rapidity and ease of its action Washing the dirtiest clothes perfectly clean in from five to ten minutes, with but slight labor, and lasting, with proper care, for ten years. The wear and tear of clothing in washing by this machine is vastly less than by any other known process of washing It does its work by a reverse motion in forcing the water through the clothes

It having a tight cover, the steam thus assists materially in cleansing the clothes, and also avoids the inhaling of steam from hot suds.

This Machine captured the Special Premium at the California State Fair, and all that have used it pronounce it an invaluable adjunct to aid housekeepers and families and washing men and washing women

It has been extensively introduced throughout the State of California, and receives the universal commendation of all who have used it

THE COUNTY RIGHTS, now unsold, will be sold at a bargain if applied for soon

SURVEY OF IDAHO —Commissioner Wilson has received from the Surveyor General of Idaho returns of the survey of the base line one hundred and two miles east, and thirty six miles west from the initial point, the Boise meridian south seventy two miles from the initial point, and the first standard parallel south thirty six miles from the Boise meridian

This is the second return received from that office of surveys executed in that Territory.

The surface over which the base line passes west from the initial point is generally rolling prairie and second rate soil so far as Snake river, twelve miles It then passes over the mountain range lying between the Snake and Owyhee rivers, the greater part of the distance is good grazing land. The line passing east from the initial point is over gently rolling prairie, thickly covered with grass, except in the vicinity of the South Boise river, where the surface is very broken The line crosses above the north side of Big Camas prairie, over a well watered and fertile region, occasionally cutting the foot of the hills The line of the Boise meridian south from the initial point to the Snake river is over a gently rolling plain of second rate soil The bluffs on Snake river where this line crosses is very abrupt, the river running through a canyon five hundred feet deep After passing the bluffs the line passes up the valley of Castle Creek, which is fertile and well watered, offering many inducements to settlers From Castle Creek, the eastern extremity of the Owyhee mountains, the country is rolling, of second rate soil, generally well watered, and covered with fine bunch grass, affording the finest facilities for grazing After passing the Owyhee mountain range, the land breaks off upon an elevated plain, very generally rocky on the surface, and of basaltic formation The first correction line south, extending west from the Boise meridian, leaves the meridian on the northern slope of the Owyhee mountains, and runs over their southeastern extremity, whence it enters upon a beautiful rolling plain, covered with fine bunch grass, the soil is generally good, second rate, well watered, and affording fine facilities for grazing throughout its entire length.

NEWSPAPER POSTAGE —It has been stated heretofore that under the new law, as interpreted at Washington, newspapers could not be sent by mail in packages across the continent, from either the Pacific or the Eastern States, except on the payment of letter postage The Postmaster General has recently rendered a decision of an opposite character, from which it appears that newspapers will be carried on the old terms, except on the Overland Mail route The last number of the *United States Mail* contains the following on the subject

Section 259, page 63, Postoffice Laws of 1866, provides that letter postage shall be charged on the mailable matter conveyed by the mail westward beyond the western boundary of Kansas and eastward beyond the eastern boundary of California, [illegible] in the case of single copies of newspapers, [illegible] [illegible] als to regular subscribers and exchanges [illegible] section, all transient printed matter was [illegible] rates The Postmaster General has decided that the section referred to is not intended to apply to Oregon, Washington, Idaho and Montana, when sent by steamer to San Francisco, and forwarded from thence by way of Portland, Oregon, or any other routes, except the regular Overland route, but to only matter actually forwarded from the Eastern States to California, and Nevada by the regular Overland Mail via Salt Lake City or any other point on the route Transient printed matter directed to any of the above places can therefore be forwarded by steamer from New York at the usual printed matter rates of postage

AN AMUSING PROCLAMATION —William McMahon, Fish Warden of Lowell, Mass , has issued a proclamation, in which he says

"It is part of my duty, as I understand it, to see that the waters of the Merrimac river, and of the canals and basins of said city are not suffered to become unhealthy and impure to the multitude of shad, salmon and alewives who contemplate returning to their old quarters next spring, in acceptance of the urgent invitation of Governor Smyth, of New Hampshire, and, whereas, it is made to appear to me that divers persons, supposed to be officials, and calling themselves 'State Constables,' have been for some time past in the habit of casting, throwing and emptying into the water of one of the canals of the said city divers noxious and confiscated compounds, commonly known as intoxicating liquors, such as 'Rifle Whisk,' 'Blue Ruin,' 'Forty Rod Gin,' 'Tangle Foot,' 'Sour Beer,' and various other spirituous, vinous, inebriating, exhilerating, and disgusting fluids, which said compounds, fluids and spirits are known to be highly detrimental, not only to the health and morals of men, but of the aforesaid piscine life in said river, but is being a clear violation of law, now, therefore, this is to notify them, the said State Constables, and any and all officials or persons, whether acting under a warrant or without one, that all such acts will in the future receive such attention from me as will effectually prevent a repetition of the same—believing that the enforcement of one law should not bring about the violation of another—reference being had in this connection to the law passed at the last session of the Great and General Court."

PARIS —Paris, if never before, merits this summer the epithet applied to it in the 'Persian Letters' —"that superb rival of the City of the Sun." The Paris of 1867 is one vast, gorgeous pageant —a panorama of civic splendor, worthy thus to be compared not alone to "Ispahan," but to all historic sites of spectacular magnificence. How this holiday garb and dazzling pomp of the always gay French capital affects different observers is amusing enough Foreigners, lost in wonder and pleasure, declare Paris the 'natural home of all the human race,' while Frenchmen, on the other hand, politely protest that they are crowded by strangers off from their own boulevards Enthusiasts point out that Paris is entering on a new era of magnificence, while croakers have lugubrious warnings of the luxury which ruined Rome The tradesmen are well content with the enormous wealth which Emperors, Kings and Princes by the hundreds, and untitled visitors by the millions, spend in their sojourn and they laugh at the clergymen who quote biblical texts against the modern Babylon Meanwhile, all the world ebbs and flows through Paris "So many nationalities," says our correspondent, "were, perhaps, never before seen assembled in one place "

THE STRONGEST MAN IN THE WORLD.—A native of Australia, Mr J I. Evans, recently gave an exhibition of remarkable strength at the Sea Hotel, in Chesterfield, England, to establish his claims as the strongest man in the world He held a fifty six pound weight in various positions at arm's length, and increased the number until he raised four fifty six weights above his head, holding them at arm's length, and at the same time standing upon four glass tumblers He also held the weights on on the top of the glass, and allowed a glass of water to be placed on top of weights He laid flat on the floor, and let a fifty six pound weight fall a distance of about a yard on his bare chest, and the weight rebounded as though it had come in contact with a piece of India rubber A piece of stone, four inches thick, was placed upon his chest, and Mr Hinch, blacksmith, smashed it into fragments with two blows Mr Hinch and Mr Turner then cut a piece of two inch iron in two across his chest with the hammer and chisel The feats concluded by Prof Hercules lying flat upon the floor, and allowing Mr Hinch to strike him, with all his strength, with a sixteen pound sledge hammer. The blow was met by the Professor, and the hammer rebounded without leaving a scratch upon his body

NEW MAIL ROUTE TO MONTANA —A western company have established stations for a new mail route from Montana to St Paul This route is the extreme northern, selected with a view to avoid hostile Indians, and is pronounced a very favorable one The contractors who laid it out met some of the Sioux and Assiniboines, who readily gave permission for the right of way He came from the Minnesota border to Helena in fourteen days, and expects that the coaches will make the distance in twelve days Two military posts are to be established on this route.

AGENT FOR OREGON AND WASHINGTON TERRITORY.

THIS CELEBRATED WASHING MACHINE IS now for the first time introduced to the Oregon public It is unrivalled for its simplicity, durability and the rapidity and ease of its action Washing the dirtiest clothes perfectly clean in from five to ten minutes, with but slight labor, and lasting, with proper care, for ten years. The wear and tear of clothing in washing by this machine is vastly less than by any other known process of washing It does its work by a reverse motion in forcing the water through the clothes

It having a tight cover, the steam thus assists materially in cleansing the clothes, and also avoids the inhaling of steam from hot suds

This Machine captured the Special Premium at the California State Fair, and all that have used it pronounce it an invaluable adjunct to old housekeepers and families and washing men and washing women.

It has been extensively introduced throughout the State of California, and receives the universal commendation of all who have used it

SURVEY OF IDAHO.—Commissioner Wilson has received from the Surveyor General of Idaho returns of the survey of the base line one hundred and two miles east, and thirty six miles west from the initial point, the Boise meridian south seventy two miles from the initial point, and the first standard parallel south thirty-six miles from the Boise meridian

This is the second return received from that office of surveys executed in that Territory

The surface over which the base line passes west from the initial point is generally rolling prairie and second rate soil so far as Snake river, twelve miles It then passes over the mountain range lying between the Snake and Owyhee rivers, the greater part of the distance is good grazing land The line passing east from the initial point is over gently rolling prairie, thickly covered with grass, except in the vicinity of the South Boise river, where the surface is very broken The line crosses above the north side of Big Camas prairie, over a well watered and fertile region, occasionally cutting the foot of the hills The line of the Boise meridian south from the initial point to the Snake river is over a gently rolling plain of second rate soil The bluffs on Snake river where this line crosses is very abrupt, the river running through a canyon five hundred feet deep After passing the bluffs the line passes up the valley of Castle Creek, which is fertile and well watered, offering many inducements to settlers From Castle Creek, the eastern extremity of the Owyhee mountains, the country is rolling, of second rate soil, generally well watered, and covered with fine bunch grass, affording the finest facilities for grazing After passing the Owyhee mountain range, the land breaks off upon an elevated plain, very generally rocky on the surface, and of basaltic formation The first correction line south, extending west from the Boise meridian, leaves the meridian on the northern slope of the Owyhee mountains, and runs over their southeastern extremity, whence it enters upon a beautiful rolling plain, covered with fine bunch grass, the soil is generally good, second rate, well watered, and affording fine facilities for grazing throughout its entire length

NEWSPAPER POSTAGE.—It has been stated heretofore that under the new law, as interpreted at Washington, newspapers could not be sent by mail in packages across the continent, from either the Pacific or the Eastern States, except on the payment of letter postage The Postmaster General has recently rendered a decision of an opposite character, from which it appears that newspapers will be carried on the old terms, except on the Overland Mail route The last number of the _United States Mail_ contains the following on the subject

Section 252, page 63, Postoffice Laws of 1866, provides that letter postage shall be charged on the mailable matter conveyed by the mail westward beyond the western boundary of Kansas and eastward beyond the eastern boundary of California—except in the case of single copies of newspapers, magazines and periodicals to regular subscribers and exchanges Under this section, all transient printed matter was charged at letter rates The Postmaster General has decided that the section referred to is not intended to apply to Oregon, Washington, Idaho and Montana, when sent by steamer to San Francisco, and forwarded from thence by way of Portland, Oregon, or any other routes, except the regular Overland route, but to only matter actually forwarded from the Eastern States to California, and Nevada by the regular Overland Mail via Salt Lake City or some other point on the route. Transient printed matter directed to any of the above places can therefore be forwarded by steamer from New York at the usual printed matter rates of postage.

AN AMUSING PROCLAMATION.—William McMahon, Fish Warden of Lowell, Mass., has issued a proclamation, in which he says

"It is part of my duty, as I understand it, to see that the waters of the Merrimac river, and of the canals and basins of said city are not suffered to become unhealthy and impure to the multitude of shad, salmon and alewives who contemplate returning to their old quarters next spring, in acceptance of the urgent invitation of Governor Smyth, of New Hampshire, and, whereas, it is made to appear to me that divers persons, supposed to be officials, and calling themselves 'State Constables,' have been for some time past in the habit of casting throwing and emptying into the water of one of the canals of the said city divers noxious and confiscated compounds, commonly known as intoxicating liquors, such as 'Rifle Whisk,' 'Blue Ruin,' 'Forty Rod Gin,' 'Tangle Foot,' 'Sour Beer,' and various other spirituous, vinous, inebriating, exhilarating, and disgusting fluids, which said compounds, fluids and spirits are known to be highly detrimental, not only to the health and morals of men, but of the aforesaid piscine life in said river, besides being a clear violation of law, now, therefore, this is to notify them, the said State Constables, and any and all officials or persons, whether acting under a warrant or without one, that all such acts will in the future receive such attention from me as will effectually prevent a repetition of the same—believing that the enforcement of one law should not bring about the violation of another—reference being had in this connection to the law passed at the last session of the Great and General Court."

PARIS.—Paris, if never before, merits this summer the epithet applied to it in the "Persian Letters"—"that superb rival of the City of the Sun." The Paris of 1867 is one vast, gorgeous pageant—a panorama of civic splendor, worthy thus to be compared not alone to "Ispahan," but to all historic sites of spectacular magnificence. How this holiday garb and dazzling pomp of the always gay French capital affects different observers is amusing enough Foreigners, lost in wonder and pleasure, declare Paris the "natural home of all the human race," while Frenchmen, on the other hand, politely protest that they are crowded by strangers off from their own boulevards. Enthusiasts point out that Paris is entering on a new era of magnificence, while croakers have lugubrious warnings of the luxury which ruined Rome. The tradesmen are well content with the enormous wealth which Emperors Kings and Princes by the hundreds and untitled visitors by the millions, spend in their sojourn and they laugh at the clergymen who quote biblical texts against the modern Babylon Meanwhile, all the world ebbs and flows through Paris "So many nationalities," says our correspondent, "were, perhaps, never before seen assembled in one place"

THE STRONGEST MAN IN THE WORLD.—A native of Australia, Mr J. J. Evans, recently gave an exhibition of remarkable strength at the Sun Hotel, in Chesterfield, England, to establish his claims as the strongest man in the world He held a fifty six pound weight in various positions at arm's length, and increased the number until he raised four fifty six weights above his head, holding them at arm's length, and at the same time standing upon four glass tumblers He also held the weights on the top of the glass, and allowed a glass of water to be placed on top of weights He laid flat on the floor, and let a fifty six pound weight fall a distance of about a yard on his bare chest, and the weight rebounded as though it had come in contact with a piece of India rubber A piece of stone, four inches thick, was placed upon his chest, and Mr Hinch, blacksmith, smashed it into fragments with two blows Mr Hinch and Mr Turner then cut a piece of two inch iron in two across his chest with the hammer and chisel The feats concluded by Prof Hercules lying flat upon the floor, and allowing Mr Hinch to strike him with all his strength, with a sixteen pound sledge hammer The blow was met by the Professor, and the hammer rebounded without leaving a scratch upon his body

NEW MAIL ROUTE TO MONTANA.—A western company have established stations for a new mail route from Montana to St Paul This route is the extreme northern, selected with a view to avoid hostile Indians, and is pronounced a very favorable one The contractors who laid it out met some of the Sioux and Assiniboines, who readily gave permission for the right of way He came from the Minnesota border to Helena in fourteen days, and expects that the coaches will make the distance in twelve days Two military posts are to be established on this route.

WINDFALL.—John D. Stockton, of the New York _Tribune_, has fallen heir to $100,000 worth of Mississippi steamboats. He is going to give all the journalists a free pass.

## Secret Political Organizations.

The following is from the *Herald*.

> Secret political combinations are in their very nature [illegible] to popular government—conspiracies against popular rights. None but traitors ever conspire in secret where equal rights are maintained by law.

It is well known that secret political societies were maintained by the Democrats during the rebellion throughout all the Northern States, and that these organizations were intended to assail the Government in the rear, just as those armed political societies, otherwise known as the rebel armies, assailed it in front. In fact the Northern and Southern societies were only different wings of the same army. Now as the writer of the above extract declares that secret political organizations are always treasonable, and that none join in them except traitors, his own status will be well understood by reading the following communications, which were published in San Francisco in 1865:

GRASS VALLEY, Aug 22, 1864

[illegible] BROWN, Esq—*Dear Sir*: We are very anxious up here that you should send along the 57 arrangements which I wrote you a week ago. Also send a copy of the alphabet. We are organizing in various parts of the country, and will soon be able to make a good report to you. It would be well to continue my power to organize. Do I still have authority? I think we can raise [illegible]. Please answer soon. Yours,

J. R. RIDGE.

SACRAMENTO, Sept. 22, 1864

[illegible] BROWN Esq—*Dear Sir*: Parties in both Placer [illegible] counties desire that councils of the 57 shall [illegible] in those counties, and have applied to me to [illegible] them. If you will authorize me to do so, I will [illegible] counties for that purpose. Should you give [illegible] ly send me at the same time several copies of [illegible] constitution, instructions, keys, etc.

Yours Truly,
A. A. BENNETT.

So it appears that the individual who inveighs so bitterly against secret political societies, is, by his own showing, not only a traitor, but that while in California, he was head traitor among those who were "conspiring in secret." He was at the [illegible] of a secret combination against the Government, and this precious lot of traitors were [illegible] the United States mails to forward [illegible] schemes, and claiming the protection of the Government while plotting against it. Secret [illegible] in the interest of the rebellion were, in [illegible] of these conspirators, perfectly justifiable, but secret societies to counteract them and [illegible] the country were totally wrong. The [illegible] addressed in the above letters does not deny [illegible] connection with those secret political societies; [illegible] simply denies that their object was such as it [illegible] to have been. Even if we give [illegible] the benefit of this explanation, his admission [illegible] he was a member of the order and his declaration that "secret political societies are in their [illegible] nature treasonable to popular government," [illegible] against him. He simply furnishes proofs that [illegible] himself a traitor. As these facts are established the case may as well be rested here. We [illegible] only add that these proofs leave no doubt of [illegible] that treason and Democracy have ever [illegible] together as two yoke devils sworn to either's [illegible].

Joseph E. Brown, of Georgia, who was Governor of that State during the rebellion, has a [illegible] of putting things which must render them [illegible] clear even to the purblind politicians [illegible] the Northern Democracy. He says: [illegible] State had no right to secede, and did not [illegible] the conclusion is inevitable that all who [illegible] produce war and ought [illegible] attempted and all believing voted for or [illegible] aided secession, are traitors against [illegible] which they believed had rightful [illegible] over them and all who so believing [illegible] to support the Constitution of the [illegible], and afterward aided the rebellion, [illegible] perjured traitors." This com[illegible] takes the bottom out of all Copperhead [illegible] on this subject. There is no escape [illegible] which is here stated.

[illegible] Roacher, an emissary from the [illegible], was on hand in California for some [illegible] prior to the late election with an abundance of [illegible] furnished him from the Bel[illegible] Johnson Corruption Fund. This [illegible] disbursed with unbounded prodigality, [illegible] in San Francisco. The movements of [illegible] were exposed by the city press before [illegible]. We read the other day in a Democratic [illegible] that there are fully twenty thousand [illegible] in California naturally leaning toward the [illegible] party, but who habitually sell their [illegible] to whoever gives them the most money. [illegible] that in this case the Democratic man[illegible] got up a considerable part of those votes, [illegible] the money was furnished to a large extent [illegible] corruption fund of Johnson, Mrs. Cobb, [illegible] & Co.

[illegible] tonnage of the different nations is [illegible] of a comparison by a contemporary, [illegible] it appears that Great Britain, with her [illegible] stands greatly ahead in the amount of [illegible] tonnage while Northern Germany [illegible] France being third on the list. The [illegible] are Great Britain, 5,800,000 tons; the [illegible] States 5,000,000; Northern Germany, [illegible]; France, [illegible],000, Italy, 666,000; Neth[illegible] 519,000, Spain, 277,000; Austria, 233,[illegible] and Norway, 177,000; and Den[illegible] 140,000. In the year 1860 and 1861 the [illegible] States had overtaken England as the first [illegible] power, and had at that time the largest [illegible] of any nation in the world.

The "Oregon [illegible]" boasts almost daily of the changes [illegible] of its party in this county. These [illegible] so far as yet reported, consists of the [illegible] Bettmann & Fechheimer. Dow, of the [illegible], does not think them of much consequence, [illegible] remarking on the subject says that "mer[illegible] always changes hands at a slight advance on the old price." He has a supreme con[illegible] for those Democrats who are "bought, not [illegible]" when "a Marshalship is the legitimate [illegible] of one, and the benignant smiles and pat[illegible] of a Democratic editor another." Dow [illegible] the situation.

The Copperheads would never have taken Haight as their candidate for Governor in California had they supposed they could elect an "out-and-outer." He was born an Abolitionist, voted for Birney in 1844, for Fremont in 1856 and for Lincoln in 1860. He supported McClellan in 1864. A Dem[illegible] paper of Oregon calls such as he "lascivious political hags, bought for a time and faithful only while in the harness." He does not now half agree with his party, and before one year of his term has expired he will be vetoing their measures and they will be cursing him.

A Copperhead paper inquires if the members of Congress from California will be admitted to their [illegible]. It puzzles us to know why they should seek admission. On the Copperhead theory Congress for some years has been an illegal body, unknown to and unauthorized by the Constitution. Why therefore should Constitutional Copperheads [illegible] to obtain seats in an unlawful and revolutionary assembly? But we have always observed that they are wonderfully eager to get there. "This is one of the curiosities" of Copperheadism.

If the political reactionists should succeed in obtaining power, one of their first acts would be to remand the blacks to bondage again, on the pretense that the emancipation amendment was not constitutionally enacted because it was forced on the South. They all want the Constitution as it was without any amendment.

H. [illegible] Struve retires from the management of the Vancouver *Register*. The paper will be continued but Mr. Struve's successor is not yet [illegible].

## Fundamental Principles Sacrificed.

In the canvass of 1864, Col. Kelly, then a candidate for Congress, declared in his public speeches that "the States made the Government and they could unmake it." This doctrine was at that time proclaimed throughout the Union as a long established principle of the Democratic party. Their orators at the North were using it as an argument against "coercion," and Southern Democrats claimed that the principle fully justified secession. There was no difference between the interpretation which was given it at the North and that given it at the South. The only difference between Northern and Southern Democrats was that the latter had proceeded to put the principle in practice, while the former still hesitated to do so,—though they labored assiduously all the while in furnishing arguments and apologies for their political brethren who had taken arms. The Southern States had undertaken to "unmake the Government," and Col. Kelly and the party he represented said they had a right to do it. This was the position held by the party at that time in Oregon and in all the other States. It was a universally received principle among them that the States could unmake the Government. Do they hold this principle still, or have they renounced it? Will any of their organs in this State furnish an answer?

The first resolution of the Democratic platform of California declares "that the Government of the United States is the paramount Government of the country, and that the allegiance due to such Government is a binding and perpetual obligation, to be observed with fidelity and good faith." Do Oregon Democrats endorse this declaration? And if they do, how will they reconcile it with the doctrines of their old resolutions which declare that the States are equal in sovereignty with the Government of the United States? Here is an unequivocal declaration that the Government of the Union is the paramount Government of the country; do they endorse it? Are they ready to repudiate all the platforms they constructed from 1798 to 1865? Do they assent to the doctrine that this is a consolidated Government? If they do they can endorse the California resolution. And if they endorse the California resolution they repudiate Thomas Jefferson.

It would be curious to observe how a Democrat would go to work to reconcile this "paramount Government" doctrine with the old record of his party. That would be a wonderful method of reasoning which would make this idea of a consolidated Government quadrate with the "eternal principles" and the resolutions of '98. The only conceivable way for a Democrat to explain the matter would be by frankly acknowledging that the party has cut loose from its old ideas, or that, in making such a declaration as this, it is temporarily sacrificing its principles for the sake of success. The last supposition is much the more probable one. If the Democrats of Oregon ever resolve that the Government of the United States is the paramount Government of the country, they will do it with a mental reservation, and with a purpose at some future time to reassert the old principle that the States are sovereign and that they can "unmake the Government" when it pleases them.

The vote of Sacramento county, Cal., for Governor, was as follows: [illegible], 469; Gorham, 1,673; Haight [illegible]. Total, 4,239. The total vote in the last election was 5,935. This shows a loss of nearly 1,700 votes, or 35 per cent. of the whole. The Democratic vote averages about 200 more than in 1864. This is no more than the increase which they might reasonably be expected to gain by the disaffection among their opponents. As the returns come in the figures show that the defeat of the Union party was not owing in the smallest degree to any change of political sentiment, but solely to the fact that its candidates were forced upon it by trickery and fraud. Had Bidwell, the party's choice, been nominated, with a full ticket equally acceptable, the party would have succeeded by an overwhelming majority. There were Union men enough in San Francisco and Sacramento alone, who did not go to the polls, to have defeated the entire Democratic ticket.

### The Moral of It.

Under this head the Sacramento *Union* of the 7th has a long article on the late election in California. We give the concluding paragraph:

> Those who regard this election as a triumph in favor of the obsolete Democracy, or as a verdict against the plans of Congress for the reconstruction of the ex-States, or an affirmation of the conduct of the President, are greatly in error. These things did not engage the attention of the voters; or, if they did at all, it was only to reduce the majority given against the head of the Union ticket. A square vote on the issue between the President and Congress to-day would result in a majority of 12,000 for the latter. The ruling idea in the election last Wednesday was just this: That the people mean to hold their leaders to fair and honorable dealings in political affairs, and that they will condemn any candidates who do not accord with this sentiment. That the innocent were made to suffer with the guilty is the fault of that general apathy among Union voters which resulted from the necessity of supporting candidates and sanctioning acts they could not approve, or of staying away from the polls. Of the twenty-two thousand four hundred voters registered in San Francisco, a quarter stayed away from the polls; in Sacramento City one-eighth of the registered voters did not vote; in the strong Union county of Nevada, one of the local papers there tell us that "out of 5,700 voters on the Great Register, hardly 3,500 votes were cast in the county." It was the same, we presume, in nearly all the counties; and of those who did not vote it is safe to assume that nine-tenths were of the Union party. With a ticket such as the people would have nominated, the Union vote of the State would have been 20,000 more than it is recorded. They were utterly disgusted at the hypocrisy and corruption of the politicians who assumed their leadership, and all the terrors of party discipline and the insane ravings of a falsehearted and pusillanimous press were as unavailing as the idle wind.

A VENERABLE ORATOR.—If the following paragraph, which we find in a Virginia exchange, is not incorrect, a remarkable instance of longevity in the Old Dominion has been suffered to pass unnoticed by the people at large. We quote:

> It is expected that Hon. H. L. Grigsby, of Norfolk, the oldest living cotemporary of Jefferson, who was a class mate at William and Mary's College with Jefferson when Virginia was a colony under the British crown, and who was a member of the Convention of 1776, will be one of the speakers on the occasion of the erection of the Jefferson statue at Charlottesville, October 8th.

The Boston *Post*, the leading Democratic journal of New England, sounds the war cry of the "progressive Democracy" in this fashion:

> We have urged the North again and again, to make its citizens equal before the law and before the ballot box. We should be glad to see the Massachusetts Suffrage law adopted by every State in the Union. No matter what a man's color or size may be—if he can read and write, is twenty-one years old,—(we have no objection to eighteen,)—and so forth—let them vote.

The rebels are exhausting all their stores of vituperation against Brownlow. The following anecdote is the offspring of a particularly lively imagination:

> A old lady in Knox county, Tennessee, on reading Governor Brownlow's bulletin stating his health to be in a favorable condition, burst out with, "Well, folks, I tell you what it is, if Brownlow don't die soon, he'll go to hell alive.

It was customary for a certain college professor to inquire of the graduating class what each proposed to be or do in the world. One would be a doctor, one a lawyer, one a merchant, and so on. "And what do you propose to be, Simon?" "I am going to be a Pithcopal minister," was the answer of the lisping graduate, "for three reasons—first, the prayers are all in print, and I can read them easily; second, the sermons of Pithcopal ministers are short, and them I can steal; and, third, Pithcopal ministers generally marry rich wives."

There is a vase in the Paris Exposition valued at $2,800,000.

GEN. GRANT IN HIS NEW OFFICE.—A correspondent of the New York *Times*, writing from Washington, August 13th, says:

> General Grant's first day's administration of the War Office has not been characterized with any startling developments, or even the occurrence of anything beyond the ordinary business of the Department. He attended the regular Cabinet meeting, held at noon to-day, and subsequently established his permanent office during his *ad interim* Secretaryship in the rooms formerly occupied by Stanton. The routine of the Headquarters of Armies will be transacted as usual by Major Leet, A. A. G., and General Townsend will retain supervision over that class of business in the War Department; but all questions arising in either office will be referred to the General in person for his action. In this connection it will be interesting to know that Gen. Grant looks upon this assignment to the War Department by the President in the light of a military order which he had no right to decline obeying nor even the right to protest against. He and Stanton have fully understood each other from the first development of the attempt to oust the latter from office; and it is understood that in their conferences regarding the matter, they discussed at length the influence of the acceptance of the assignment on Grant's political *status*, as well as the well known efforts of a judicial officer, who is a candidate for the Presidency, to identify him with his Administration. Viewed from this standpoint, his present position cannot be accepted as an indication that he has changed his views regarding reconstruction matters, and the fact that he is fully indorsed by Stanton will have great weight with the public in freeing him from the effects of the President's evident desire to depreciate his standing in the eyes of loyal people.

A Massachusetts paper describes an entirely new apparatus for manufacturing lumber—a complete sawmill, having engine attached directly to the saw sash by the piston rod. The sash works in two upright standards of cast iron, which are made to carry the feed rollers, pressure rollers, etc., thus bringing the work within a very small space. Indeed, the whole mill only occupies a ground space of ten feet eight inches by four feet, exclusive of the cars for carrying the logs, and yet it is calculated to carry forty or fifty saws.

AN EXTENDED POPULARITY.—"BROWN'S BRONCHIAL TROCHES" have been before the public many years. Each year finds them in new localities in various parts of the world. The Troches are pronounced universally superior to all other articles used for similar purposes. For relieving Coughs, Colds, and Throat Diseases, the Troches have been *proved* reliable.

"FAMILY DYE COLORS."—The most useful and welcome articles found in almost every household in the land, are the FAMILY DYE COLORS of Howe & Stevens. They can always be relied upon, are easily used, and cost but a trifle. Sold by Smith & Davis.

### THE WEEKLY OREGONIAN.

THE WEEKLY OREGONIAN is published this morning It contains the latest telegraphic news from the East and California—a selection of the best articles appearing in THE DAILY OREGONIAN,—full and reliable news from the Mines, and the most copious commercial information published by any paper in the State.

The average amount of reading matter in the WEEKLY OREGONIAN is double that published by any other journal in Oregon; and in the particular of Commercial statistics and the Markets we aim to make it the most reliable more especially in matters pertaining to Oregon interests

☞ Single copies 12½ cents, or $3 00 per year, to any part of the United States, or British Columbia.

VANCOUVER ITEMS.—The subjoined items are from the Vancouver *Register*: Major R N. Scott, of Gen. Halleck's staff, and Major Hoyt, left for Puget Sound yesterday to make arrangements for the expedition to be shortly sent to Russian America..... The Second Nine of the Occidentals and the First Nine of the Continentals played their second match game on last Tuesday, resulting in a victory for the former by 35 runs.... The Sherman Boys and the Occidentals will play their second match game to day.. .. The celebrated "hod case," wherein is involved the possession of a mortar hod worth about two dollars, has gone to the District Court upon a writ of *certiorari* after boxing about from one Justice's court to the other and from the other into the cold The amount of the costs are now already nearly fifty times the value of the thing in controversy ...Mr. Bolton a good honest and industrious citizen, having a family and residing a few miles from Vancouver, lost everything he had in the world by a fire which swept through his place last week House, improvements, the crops that had just been gathered, all articles of personal property, everything was devoured by the fierce element. We are truly glad that an effort made to relieve his most urgent wants has been liberally responded to by our citizens......Mrs Ada Hoyt Foye, was arrested and fined by Recorder Smith for holding a public seance on last Wednesday evening, without having first obtained a license. The lady paid the fine after entering a plea of *nolle contendere*, claiming that her performance could not properly be classed as a public show or entertainment, but was to be considered in the light of a public lecture upon a subject religious in its nature. We concur......A man named John Milehane, a native of London, who has been employed as cook in the Vancouver House, died very suddenly on Wednesday morning. He was engaged in preparing breakfast and seemed in perfect health, when suddenly he rolled over and expired immediately. From papers found on his person, we learned the fact that he was a warrant officer on board of H. B. M.'s ship *Carline*, was discharged at Victoria and bore a good character .....On Wednesday morning last about one o'clock the alarm of fire was heard and soon the Oak Grove Theatre on the Military Reserve was discovered to be on fire. The firemen were promptly on the ground but the fire had made such progress, that it was impossible to save the building It was filled at the time with straw and forage belonging to the Government which of course is a total loss.

RECORDER'S COURT.—The following cases appeared upon the docket of the City Recorder yesterday morning:

—— Cokely, arrested for drunkenness and disturbance of the peace; having already remained in "durance vile" two days, and being "sober as a judge" was discharged.

Indian Tom was again up for having obstructed the progress of passers-by, by placing himself in a horizontal position on the sidewalk while in a state of intoxication.

John Brown, examined upon a charge of larceny from the Shakspeare Hotel, pleaded not guilty Witnesses were called and testified as to the facts, and the Recorder took the case under advisement until 9 o'clock this morning Defendant remanded to the city jail.

U S. CIRCUIT COURT.—In this Court on Thursday, before Field, Justice, sitting as appellate judge, the following proceedings were had. In the case of Mansfield vs. steamer *Oregon*, appeal by claimant of steamer, dismissed for want of prosecution.

On Friday, in the case of the U. S vs. Alexander Dodge, an action for Duties, judgment of District Court affirmed.

U. S. vs. steamer *Active*, judgment of District Court affirmed, and libel dismissed. The Court adjourned to ten o'clock this morning.

LEAVING OREGON.—Rev. P. S. Caffrey, for several years a resident of this city, and Pastor of the First Presbyterian Church, leaves to-day on the *Oriflamme* for the Eastern States. We believe he intends locating in New Jersey. While he filled the pulpit of the above named church, he endeared himself to the hearts of many who attended his ministrations, and as he goes away the best wishes of all who know him will go with him and his family who accompany him.

NOT SOUR GRAPES.—But large, highly flavored and delicious were the clusters sent us by Mr. R. E. Chatfield, on last evening. They were grown in the vineyard of G. M—, two miles south of Butteville, Marion county. Mr M. has a fine site for the production of this luscious fruit, on the southern slope of a high hill, and by scientific culture has demonstrated the fact that Oregon can produce as fine grapes as our neighbor California. Mr. Chatfield, we bow to you.

JUDGE FIELD goes by the steamer to San Francisco. All the cases before him on appeal from the United States District Court for this district will have been disposed of before the adjournment to-day. On yesterday, in company with Judge Deady. Gov. Gibbs and others, he paid a visit to the Iron Works at Oswego, and expressed himself pleased with the prosperity and resources of Oregon, as far as he has seen them.

REMEMBER.—That to-night at the Oro Fino Hall in this city, Martin, the Wizard, will give one of his wonderful exhibitions. The celebrity which he has achieved in the East and California is a guaranty that all who witness his entertainment here will be amply repaid for their time and money All should go and see to what an extent the magician art can be carried. Doors open at 7; performance begins at 8 P. M.

BUSY.—The streets of Portland presented a livelier appearance yesterday than we have seen them for some time. There was an increased activity in commercial circles, and jobbers were busy in filling orders from the Upper Columbia and Willamette Valley. We predict that there will be a fair amount of trade during the fall months, and the prospects of the past week justify the conclusion.

WILLAMETTE FREIGHTS.—During the week a large amount of freight has been brought down by the boats, from the Willamette Valley, principally bacon, flour, fruit and wheat. Besides these shipments many wagons loaded with country products are constantly arriving, and on yesterday the *Senator* brought from Oregon City 1,800 sks flour, 112 boxes fruit, 6 sks dried do., 2 kegs butter, 1 bale paper.

FURNITURE SALE.—To-day at Richardson's Auction Rooms on Front street will be sold a set of Parlor Furniture entirely new. Mr. R. is quite a genius in his line, and will be pleased to see the public at his place of business to-day, besides offering them a fine chance to purchase many desirable articles.

LARGE AUDIENCE.—At the lecture by Benj Todd, and seance by Mrs Foye last evening, the large hall was filled. A variety of opinions seemed to pervade the audience in regard to the "manifestations." We have not time, space nor inclination to say what we think of them

ARRESTED.—A man by the name of Kouck was arrested yesterday morning on complaint of Jack Alphin, charging him with the crime of larceny, by stealing six dollars from the till of Jack's saloon, in this city. His case will come up for a hearing before the Recorder this morning.

CAMP MEETING.—We learn that a Camp Meeting is in progress near Ames Chapel, some seven miles southwest from this city. It is under the superintendence of Revs. DeVore and Turner, and will continue over Sunday.

SAILS.—The steamer *Oriflamme* sails for San Francisco this afternoon at five o'clock.

GO TO BEPWAY BROS., on corner Front and Morrison streets for your custom-made clothing.

GOOD AND CHEAP.—We took occasion on yesterday to call in at the store of Messrs. Kohn & Fishel on Front street, where we saw one of the largest stocks of gent's. ready made clothing we ever saw in Portland, and the prices were remarkably low, so low in fact, that a very small sum of money would purchase a very fine suit of clothes. Our readers would do well to examine their immense stock.

FIRST NATIONAL BANK OF IDAHO—Boise City, I. T.—Organized March 11th, 1867, (with circulation) under Act of Congress, approved June 3d, 1864. Authorized capital $500,000. Paid up capital, $100,000. B. M DuRell, President. C. W. Moore, Cashier. Collections of Notes and Accounts on the principal places in Idaho Territory promptly attended to. Exchange for Coin or Currency on this Bank can be purchased of Ladd & Tilton, Portland, Oregon.

PATRICK HENRY.—A curious and hitherto unpublished manuscript of Thomas Jefferson, appears in a recent number of the Philadelphia *Age*. Mr. Jefferson speaks of Patrick Henry in the following terms: "Mr. Henry began his career with very little property. He acted, as I have understood, as barkeeper in the tavern at Hanover, C. H., for some time; he married very young and settled, I believe, at a place called Roundabout, in Louisa, got credit for some little store of merchandise, but very soon failed. From this he turned his views to the law, for the acquisition or practice of which he was too lazy. Whenever the courts were closed for the winter season, he would make up a party of poor hunters of his neighborhood; would go off with them to the piny woods of Fluvanna, and pass weeks in hunting deer, of which he was passionately fond, sleeping under a tent, before a fire, wearing the same shirt all the whole time, and covering all the dirt of his dress with a hunting shirt. He never undertook to draw pleadings if he could avoid it, or to manage that part of a cause, and very willingly engaged but as an assistant to speak in the case. And the fee was an indispensable preliminary, observing to the applicant that he kept no accounts, never putting pen to paper, which was true. His powers over a jury were so irresistible that he received great fees for his services, and had the reputation of being insatiable in money.

## STATE ITEMS.

A camp meeting under the direction of the Methodists is now in progress at Ames' Chapel, about eight miles west of this city

A lamp exploded on the evening of the 4th inst in Brenner & Bro store in Canyon City setting fire to the goods By great exertion the fire was extinguished without material loss

The Willamette University opens its next collegiate year September 16th, 1867 The following constitute the faculty of instruction Rev L T Woodward acting President, and Professor of Mental and Moral Science; Rev F I Powell, A M, Professor of Mathematics and Natural Science; Mr F H Grubbs, A M, Principal of Academic Department, Mrs Lucy A L Grubbs, M E L Preceptress; Mrs E H Woodward, Teacher in Primary Department, Miss Amelia Holman, Teacher of Instrumental Music.

DID NOT VOTE.—The Nevada (Cal ) *Transcript*, speaking of the result of the election in its county, says:

Out of 5,700 votes on the Great Register hardly 3,500 were cast in the county Two hundred and fifty votes enrolled on the poll list were not cast, and in Grass Valley 200 did not vote who were not enrolled. These were mostly Union voters We have been beaten, not by the increase of Democratic votes, but because of the neglect and unconcern of loyal men.

The first printed ballot ever used at an election was probably cast by a Massachusetts man for Gen. Jackson, in the old town of Leicester. David H enshaw was the first man in Massachusetts who offered a printed ballot at the polls, he claiming that it was, in a legal point of view, a written one. The ballot was rejected. Henshaw prosecuted the selectmen, and the matter was carried to the supreme court, where it was decided that Henshaw's view of the matter was correct.

**Important Notice to Mechanics.**—The demand in the city of San Francisco for Ship Carpenters, Caulkers and Boiler Makers, is unusually great at the present moment Competent mechanics will find immediate employment by the Pacific Mail Steamship Company, the Oregon, California and Mexican Steamship Company, the California Steam Navigation Company, and the various Ferry Companies.

All the above mentioned companies are making improvements of such magnitude that able-bodied men need not be idle a single day The present demand for workmen must continue for years to come, as the amount of work actually now contracted for, and in contemplation, will furnish employment for every mechanic on the Pacific coast

Wages, $5 50 per day, in gold!

Capable men who are now seeking employment in Oregon and the interior towns of California, can obtain regular work here, at the price above given, by asking for it.

Let them come as soon as they choose. They are needed in San Francisco.

The wages of men employed about steamers and ships are always of the highest grade, and men who can do such work have never been known to lack employment.

In all cases where men do overwork, the extra hours are at double pay.

In no place is there so much overwork and nightwork done as in San Francisco, as haste and despatch are the watchwords here, and the companies are ready to pay for such extra work.

San Francisco, August 24, 1867.

### Important Notice to Ship-Carpenters, Caulkers and Boiler-Makers.

Brothers, beware and do not be deceived by the above lying poster, which is gotten up by parties who a few weeks ago threatened that they would flood the market with mechanics, for the purpose of destroying trade organizations and breaking up the eight-hour system.

There is no unusual demand for the above-mentioned class of mechanics. There are, and have been for months, from fifty to one hundred and fifty men idle, who are most anxious to work.

The Pacific Mail Steamship Company, California, Oregon and Mexico Steamship Company, California Steam Navigation Company, and the Ferry Companies, are at the present time building two steamboats; one is nearly done; the other will give work to about twenty-five carpenters for three and a half months.

There is but comparatively little repairing done, the P. M. S. S. Co.'s ships having been extensively repaired within the last year.

On the boats now building, $5 per day is being paid, no higher wages being demanded; the $5 50 which is offered in the card being paid for old work and on short jobs

Capable men in Oregon and the interior towns of California had better remain there, as there are at all times from one-fourth to one-half more men in the city than can find employment.

The P. M. S. S. Co., for the last ten years, have given steady employment to not more than ten Ship-Carpenters; the other two Companies probably as many more; the Ferry Companies not pretending to give steady employment to any number of Carpenters or Caulkers.

Extra work does not amount to five days' work per man a year.

In conclusion, fellow-mechanics, we would say to you, an attempt is being made to destroy all Trade Organizations by the capitalists of this city.

Beware! Do not be deceived by the representations of parties who are ashamed or afraid to give their names.

By order of the Association.

Attest: JOHN F. RANFIELD,
Secretary Journeyman Shipwrights' Association

SOMETHING NEW
IN DENTAL SURGERY!
WILLIAM KOEHLER,
DENTIST.

OFFICE AND RESIDENCE REMOVED TO THE Southwest corner of Front and Yamhill Streets, opposite E J. Northrup & Co's Hardware Store.

Extracting Teeth by Dr. Richardson's apparatus, with Ether Spray, is local in its application, the tooth and surrounding parts only becoming insensible to pain. Those suffering from bad teeth can now have them removed free from pain and without the effects of inhaling chloroform, ether or nitrous oxyde (laughing gas)

N. B.—To strangers I would say, that a constantly increasing Dental Practice for the last five years in this city, will be a sufficient guarantee for them to receive a First Class and Finished Piece of Work. Numerous testimonials to the same can be given at the office

HELMBOLD'S EXTRACT BUCHU gives health and vigor to the frame and bloom to the pallid cheek Debility is accompanied by many alarming symptoms, and if no treatment is submitted to, consumption, insanity, or epileptic fits ensue

PERRY DAVIS' PAIN KILLER.

Travelers are always liable to sudden attacks of dysentery and cholera morbus, and these occurring when absent from home are very unpleasant PERRY DAVIS VEGETABLE PAIN KILLER may always be relied upon in such cases As soon as you feel the symptoms, take one teaspoonful in a gill of new milk and molasses, and a gill of hot water. Stir well together and drink hot Repeat the dose every hour until relieved If the pains be severe, bathe the bowels and back with the medicine, clear.

Fishermen, so often exposed to hurts by having their skin pierced with hooks and fins of fish, can be much relieved by bathing with a little Pain Killer as soon as the accident occurs, in this way the anguish is soon abated; bathe as often as once in five minutes, say three or four times, and you will seldom have any trouble Sold by dealers everywhere

FOR NON-RETENTION or INCONTINENCE of Urine, irritation, inflammation, or ulceration of the bladder or kidneys, diseases of the prostrate glands, stone in the bladder, calculus, gravel or brick dust deposits, and all diseases of the bladder, kidneys and dropsical swellings, Use HELMBOLD'S FLUID EXTRACT BUCHU

THERE IS NO EXCUSE for those who drag their weary and disordered bodies into our company, when a few doses of AYER'S SARSAPARILLA would cleanse their murky blood and restore their health and vigor Ye muddy victims of billious disease, have some regard for your neighbors, if not for yourselves.

VENARD CHARTRES COFFEE. This fraud can deceive nobody after a trial, but only adds to the favorable opinion of the consumers, the very flattering though unwilling testimony of the counterfeiters. HOSTETTER'S
CELEBRATED STOMACH BITTERS!
A Pure and Powerful Tonic,
Corrective and Alterative, of wonderful efficacy in Diseases of the
STOMACH, LIVER AND BOWELS.
PROTECTIVE PROPERTIES.

Prevents Fever and Ague and Billious Remittent Fevers; Fortifies the System against Miasma and the evil effects of unwholesome water; invigorates the organs of digestion and the bowels,
Steadies the Nerves and tends to Prolong Life.

REMEDIAL PROPERTIES.

Cures Dyspepsia, Liver Complaint, Sick and Nervous Headache, General Debility, Nervousness, Depression of Spirits, Constipation, Colic, Intermittent Fevers, Sea Sickness, Cramps and Spasms, and all complaints of either sex arising from Bodily Weakness, whether inherent in the system or
PRODUCED BY SPECIAL CAUSES.

NOTHING THAT IS NOT WHOLESOME, GENIAL, and restorative in its nature, enters into the composition of HOSTETTER'S STOMACH BITTERS This popular preparation contains no mineral of any kind; no deadly botanical element, no fiery excitant, but is a combination of the extracts of rare balsamic herbs and plants, with the purest and mildest of all diffusive stimulants

The weak stomach is rapidly invigorated, and the appetite restored by this Tonic, and hence it works wonders in cases of Dyspepsia, and in less confirmed forms of Indigestion. Acting as a gentle and painless aperient, as well as upon the liver, it also invariably relieves the Constipation superinduced by irregular action of the digestive and secretive organs

Persons of feeble habit, liable to Nervous Attacks, Lowness of Spirits, and Fits of Languor, find prompt and permanent relief from the Bitters The testimony on this point is conclusive, and from both sexes

As a Genuine Tonic, HOSTETTER'S BITTERS produce effects which must be experienced or witnessed before they can be fully appreciated In cases of Constitutional Weakness, Premature Decay, and Debility and Decrepitude arising from old age, it exercises the electric influence. In the convalescent stages of all diseases it operates as a delightful invigorant When the powers of nature are relaxed, it operates to re-enforce and re-establish them.

Last, but not least, it is the only safe stimulant, being manufactured from sound and innocuous materials, and entirely free from the acrid elements present more or less in all the ordinary tonics and stomachics of the day.

### The Home of General Grant.

A correspondent of the New York *Tribune*, writing from Galena, (Ill.), August 10th, says:

A dozen years ago Galena was one of the sensations of what was then the Great West, and was as much talked of and written about as Omaha and Cheyenne are now. School geographies and atlases were adorned with cuts of the place, representing a hillside perforated by mining shafts, dotted with little frame houses and boarded by a stream alive with steamboats. Of late, however, Galena has been in a quiescent state and is only heard of in connection with General Grant and lead mines. Before the war Grant—Ulysses Grant—was a young married man, living in an unpretending hired house on the hill west of the town. His father was partner in a house—now Perkins—in the main street, devoted to the trade in hides. Ulysses was what was called in city firms a light porter in this store, but still did some pretty heavy work, loading carts with hides, as well as casting up accounts. He wore a slouched hat and used to go through the town with his head lowered and always smoking a cigar, and, as the salary was but small, these cigars, even at the low prices which then ruled in the article, must have been an important item in his annual expenditure.

"Did he manifest any of that talent which has since made him so famous?" I asked of a citizen who gave me these reminiscences.

"No," was the reply. "He was considered no more talented in any way than the other clerks on Main street."

"Was he in any way a prominent citizen?"

"Not at all. There was many old residents of our town who could not even recall him when his name became famous."

"Did he take any part in politics?"

"Not that I remember. He was a reticent, unpretending man, going from his home to his daily work and back again."

"Then his successful career has been a surprise to his neighbors?"

"Entirely so. They can hardly believe it yet that the great military hero of the age is the unknown Galena clerk."

"How about his Presidential prospects?"

"Well, to tell the truth, here in Galena, there is a feeling of doubt as to whether he has the administrative ability such a position properly demands. He never gave any signs of it here, but on the other hand, it is true, he never gave any intimation of military ability. Yet with all this, there is, I must say, a feeling of anxiety as to his chances for the place. His best friends prefer he should retain his army position and not aspire to the Presidency; and they say that at the proper moment he will assert this to be his own belief."

"Then I suppose," I continued, further questioning this obligingly communicative citizen, "I suppose from this he will not receive many votes here if nominated?"

"There you are entirely wrong," was the reply; "everybody in Galena will vote for him, if only out of local pride, no matter what their personal politics may be. The General is, of course, very popular here."

"Does he come here often?"

"I believe he's been to Galena only once or twice since the war began. Do you see his presentation house over there?"

We were standing on one of the hills to the west of the city, a hill dotted with scattered houses and mine shafts, near the ruins of the burned Academy and overlooking the town and Fever river. The rounded bluffs on the opposite side of the stream were crested with dwellings of various styles, from the simple cottage, the first grade above the board shanty, to the elegant villa, and even the pretentious cheap palace, in which certain American house-builders delight. Among these, just beyond the railway station, was discernible a handsome, though plain, brick house, of the better class, two stories high, with an overhanging roof, and a rear building. This house was designated to me as that given by the citizens of Galena to the General.

"It was the property of a merchant in town," continued my kindly communicative companion, "who was unsuccessful in business and decided to live in a humbler abode. So the citizens bought the house and refurnished it and presented it to General Grant. A man lives there to take charge of it, and whenever the General chooses to come to Galena his bed is ready for him."

Conversation with other citizens of Galena confirmed the information conveyed to me by my companion on the hill. Those who knew the General the most intimately, were, as is natural, the most in his praise. He certainly will get the vote of Galena however personal opinion may differ as to his Presidential capacity.

DELIGHTS OF TRAVEL ON A RED SEA STEAMER.—The heat in the Red Sea was, in my mind, terrible, although I have since found that man can bear much higher temperature without inconvenience. I couldn't eat, sleep or read. Nothing but a perfectly passive existence could be endured and the various points of interest—Mount Sinai and Horeb which were plainly visible—were merely glanced at and listlessly spoken about. Every one at least looked uncomfortable, and that the sickly heat that tormented one more than the other, was the only distinction in the apparent amount of misery each had to endure.

Troubles never come alone, so my especial antipathy, cockroaches swarmed in the cabins, beds and every crevice around you, below deck. It is not a pleasant thing to go into the kitchen, without a light and feels one or two of the small "black beetles" endeavoring to ascend your leg, or to introduce themselves into your neck, but horror of horrors is it!—to have to get into a berth that you have seen promenaded by troops of enormous insects, and to be suddenly deprived of light by an external authority blowing it out just as you fancy you discern the "captain" beetle leading his forces out for the night. Lie down, and fancies multiply, until tired nature yields at last, and dreams of Brobdignagian Cleopatra, snatches of unrefreshing sleep are obtained.

Short however, is the repose, from an uncommonly strong pull at your hair, or an uneasy feeling about your finger nails, tells you too plainly that one of the midnight visitors has commenced his evening nibbles. Positively one night I imagined my fellow companion was playing a practical joke, and constantly awakening me by tugging at my hair. Enraged and out of patience, I rose up, and flinging a slipper on the lower berth on the head of my unconscious and maligned friend, who was sound asleep, I discovered the disturber to be an enormous cockroach, measuring near three inches in length, that hurriedly scuttled off the pillow, and secreted itself in a crevice in the ship's side. Great are the tortures of those who, priding themselves on their personal appearance, with fixture and pomade, present that glossy and attractive head of hair. Cockroaches on board of ship are as fond of grease and nice perfumes as any young swell could be on shore. The moral is evident. Oil your hair as little as possible when on board a ship in tropical climates.—*St. James' Magazine.*

TERRIBLE FALL.—The following incident is related by the Austin *Reveille* of the 18th ult.:

About three o'clock yesterday afternoon, a boy named John Edwards, eleven years of age, fell to the bottom of the shaft of the South American mine, a depth of 169 feet. Edwards and another boy were playing near the mouth of the shaft, when by some means he was precipitated to the bottom. The father of young Edwards was in the shaft when he fell; he heard an unusual noise and stepped aside to avoid possible danger; and as something fell into the water he came forward and picked up his son. The poor little fellow was hoisted to the surface, bruised and mangled, and a messenger was dispatched for a surgeon. As soon as Dr. Wixom arrived the boy's injuries were examined. His head had received several contusions; the right ear was torn nearly off, and was hanging by a mere ligament; two of his ribs were broken from the spine, and his right thigh was broken and crushed. He had fallen upon his back which was severely lacerated and was as black as ink. The boy was alive, and shortly after the surgeon began his manipulations he spoke in the consciousness of pain. This morning his condition was encouraging, and there is a possibility that he will recover from his injuries received in his tremendous fall.

A WILD WOMAN IN THE WELSH MOUNTAINS.—An English paper says a wild woman has been careering the mountains of Carnarvonshire and Merionethshire for the last few years. Twice has she been captured, and once, at least, has in return captured a stray child on the hills. At last she has been run down. She was seen near Llanfairfechan in July, and a large party banded together to chase her; or rather they promised to do so, but when the hour of meeting came, only police constable A 1 came up to the scratch, and he went in pursuit alone. After an unsuccessful search over places the very name of which would break the jaw of an Englishman to pronounce, the uncivilized lady was discovered asleep on a mountain path leading to Rhiwlas from Cachaldd. The valiant officer captured her, and at two o'clock on Friday morning lodged her in the lock-up. She turns out to be an Irish woman who thinks she has been excommunicated by the Pope, and ordered to lead a solitary mountain life for ten years. The next month of that life will be spent in Carnarvon jail.

The new Helper book is received with infinite disgust at the South, and is regarded there as got up in the interest of the Northern Radicals, to excite more heat and hatred at the North against the South.

## FINANCE AND COMMERCE.

### WEEKLY REVIEW

PORTLAND, FRIDAY, 2 P. M.,
Sept. 13, 1867.

At the date of our latest dispatches from New York, September 11th, Gold was 141½, with an upward tendency. Sterling, 109½. Legal Tenders were slightly declining in San Francisco, at last accounts, buying at 69½, selling at 70½. Flour in New York ruling $13 50@14 00, with a fair demand. Wheat quiet at $2 75.

Since our market review of Sept. 6th, nothing of special importance has occurred in financial or commercial matters. The growing activity in the jobbing business of this city, noticed last week, has steadily increased during the present, and dealers are enjoying an average degree of prosperity. Orders from the interior are coming in, and many of the large stocks on hand are being reduced daily by the demand from the Upper Columbia and Willamette valley.

Agricultural Implements and Hardware are without important change. Dealers are doing well, demand fully up to the average.

Flour is scarce in the market, and quite firm at the prices given. Wheat remains as at latest quotations, with slightly increased supply.

The sales of Bacon during the week mark no special change in prices, several large lots selling at quoted rates.

Grocers are very busy, with prices firm, and demand increased, while Dry Goods are a little declined. The amount received per *Oriflamme* by our merchants was very large, and attended by a slight fall in prices.

Business, generally, although there are a few exceptions, is constantly increasing, and the dull times seem partially to have passed away. The large shipments from San Francisco and the heavy demand from the interior keep up a fair show of activity and give our streets the lively appearance of other days.

**J. H. UPTON & A. NOLTNER, Proprietors**

ON SATURDAY, AUGUST 31, 1867, A LARGE SIZE WEEKLY PAPER, with the above title, will be issued at

### SALEM, OREGON.

The CHRONICLE will be devoted to Politics, News, and the development of the varied resources of the State. In politics the CHRONICLE will be unflinchingly Democratic, supporting and advocating all those reforms in National and State polity, so urgently demanded at the present time by every consideration involving the weal of the American people. The necessity for a Democratic organ firmly planted at the Capital, will be at once apparent to every thinking Democrat in the State. Such a one we propose to make the CAPITAL CITY CHRONICLE, and with the State thoroughly Democratic to-day, with all prospective changes in favor of that party, there is no valid reason why the enterprise shall not prove a complete success.

While the CHRONICLE will devote ample space to the discussion of political topics, the News of the day, the Agricultural, Mining, Mechanical and Manufacturing interests of the State at large will receive due attention. A twenty-eight column paper, 26x38 inches in size, will furnish ample space and enable us to present in each number an amount of reading matter equal to the importance of the interests involved. We only ask at the hands of the people that legitimate patronage which shall enable us to present a sheet in every way creditable to ourselves and the State—one which none may have the least reason to be ashamed of.

### CARD.

DR. BARLOW J. SMITH'S WATER CURE AND Phrenological Institute, 627 Sacramento Street, San Francisco. This is the only Regular Water Cure in Francisco, where all curable diseases are treated without drugs. Dr. Smith was the first to establish a water cure on this coast, based upon the theory and practice of the New York Hydropathic College.

The Phrenological organs plainly indicate the diseases to which any person, male or female, is predisposed.

Put this card in your hat, and when you come to San Francisco, call on Dr. Smith. He will give you consultation and a phrenological examination in regard to health. It will cost you nothing and may save you months and years of ill health and "bad luck."

## RENNICK'S SITKA LINIMENT!

### THE MOST REMARKABLE DISCOVERY EVER MADE!

### Will Cure All Pains in a Few Minutes!

**Read the Certificates:**

### SPRAINED WRIST CURED.

PORTLAND, August 10, 1867.

I was at Mr. Wright's store on Saturday, August 10th, and seeing the magic effect of J. G. RENNICK'S SITKA LINIMENT in his case, concluded to try it on my wrist which has been sprained for some time. I found relief from it in FIVE MINUTES from its application, and it is now perfectly well. My wrist was so swelled I could not shut my fingers. I believe it will cure any pain in a short time. I will give any further particulars to whoever calls on me.

VINCENT McCULLOUGH,
Corner of Fifth and College streets.

## Tumor Removed!

PORTLAND, August 10th, 1867.

I HAVE USED RENNICK'S SITKA LINIMENT for pain and swelling of the gum and cheek. I had a large tumor forming on the gum which arose from killing the nerve in my tooth and caused me a dreadful pain which prevented me from sleep for several nights. I applied the Liniment, and to my surprise, it removed the lump and eased the pain so that it is now as well as the other cheek. My cheek was fearfully swollen. This was done in the presence of two witnesses.

T. MITCHELL.

I was present and know the above to be true, and am willing to swear to it.

L. QUIVEY.

PORTLAND, August 12th, 1867.

For five years I have suffered with a pain or weakness in my back, which at times was dreadful. I often thought I could not bear such torment. But I got a bottle of RENNICK'S SITKA LINIMENT, and with one rub it perfectly cured me. I can recommend it to any lady suffering from pains in any way, for I am convinced it will at once remove them. DORE COHN,
Corner of Fourth and Taylor streets.

Any person who does not believe this can call, and I will convince them.

## Rheumatism Cured!

State of Oregon, County of Multnomah—ss.

I, JEREMIAH BROCK, BEING DULY SWORN, SAY that I am fifty three years of age, that I reside in Yamhill County, State of Oregon. I came to Portland on business, on horseback, from my home this morning. When I left home I could scarcely walk or stand on my feet, from Rheumatism, which has afflicted me for the last eight years. I was standing in Wilson's stable, on First street, in this city, when I heard Mr. Rennick's offer to bet that he would take out the Rheumatism in any case in twenty minutes. Rennick offered to bet $100 that he could do it. I went to Mr. Rennick's house and he applied the Liniment to my leg, and in twenty minutes my leg felt sound and limber, and as well as ever. JEREMIAH BROCK.

Subscribed and sworn to before me this August 20th, 1867.

## TO THE UNFORTUNATE.

### NEW REMEDIES, NEW REMEDIES

### Dr. Gibbon's Dispensary,

**616** KEARNEY STREET, NEAR COMMERCIAL, San Francisco. Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhœa, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases (of years standing) and Ulcerated Legs successfully treated.

### Horrible Diseases.

How many thousands of persons, both male and female, are there who are suffering out a miserable existence from the effects of secret indulgences, or from virus absorbed into the system. Look at their pallid, emaciated and disfigured faces and their broken-down constitutions, disqualifying them for the happiness of marriage or the enjoyment of life. In this horrid situation thousands suffer until death closes the scene. Let parents, guardians, friends, attend to those who are suffering with any of these horrible life-destroying maladies—see that they are cared for and cured before it be too late. Send them immediately to Doctor Gibbon, a physician who has made private disease his especial study for years, and who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those who are afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities, publishing their skill to curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful and make strict inquiry, or you may fall into the hands of those charlatans.

### Seminal Weakness.

Seminal Emissions, the consequence of self-abuse. This solitary vice, or depraved sexual indulgence, is practised by the youth of both sexes to an almost unlimited extent, producing, with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical measures, viz: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the face, furred tongue, fetid breath, coughs, consumption, night sweats, monomania and frequent insanity. If relief be not obtained, should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure. Dr. G. will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by either of the San Francisco quacks.

### MARRIED MEN,

Or those who contemplate marriage, who are suffering under any of these fearful maladies, should not forget the sacred responsibility resting upon them nor delay to obtain immediate relief.

### TO THE LADIES.

The various complicated and distressing diseases incident to females, treated with eminent success. Such as Suppressions, Irregularities, Whites, Falling of the Womb, Tumors, all Urinary Diseases, Nervous Debility, Painful or Difficult Menstruation, Barrenness, etc., will be speedily cured, without poisonous drugs, injurious or unpalatable medicines of any kind. Have no delicacy in calling, no difference what your troubles may be. The afflicted are cordially invited to call and satisfy themselves.

Persons calling at Dr. Gibbon's office or sending for packages of medicines, may rely upon his assurances of confidential secrecy with implicit faith, and expect no more than to be charged with a fair, and mutually satisfactory remuneration for services rendered, considering the circumstances and difficulties of cases, rather than a too prevalent and selfish practice of extortion among quacks and pretenders.

DOCTOR GIBBON is responsible, and will give to each patient a written instrument, binding himself to effect a radical and permanent cure, or make no charge.

### CURED AT HOME.

Persons at a distance may be CURED AT HOME, by addressing a letter to Dr. Gibbon, stating case, symptoms, length of time the disease has continued, and have medicines promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions for use, for Ten Dollars, sent in registered letter or through Wells, Fargo & Co.

Address DR. J. F. GIBBON, 616 Kearney street, corner Commercial, San Francisco. Post Office Box 252.

Consultations FREE.

☞ Correspondents will please inform DR. GIBBON that they read his advertisement in the *Daily Oregonian*.

## Fountain of Life!

THE

### GREAT BLOOD PURIFIER!

IN EVERY PROGRESSIVE SCIENCE PERIODS ARrive when a new direction is imparted to its course. These epochs proceed from discovery of new facts shedding a light which changes the whole aspect of the science. The present is an epoch of this kind, and this Great Remedy, now offered to the public, in connection with the theory on which it is based, is destined to effect an entire revolution in the treatment of the diseases of

## SCROFULA AND KING'S EVIL!

by eradicating the disease entirely from the blood. The FOUNTAIN OF LIFE is composed entirely of vegetable extracts, it contains no Mercury or other mineral substance.

The Proprietor and Discoverer of this Sovereign Remedy CHALLENGES THE WORLD to furnish anything, from the days of Æsculapius down to the present time in the arcana of Medical Science, which can vie with or excel the intrinsic properties of this Great Blood Purifier. Its value has been tested with the happiest effect in the most obstinate cases of Scrofula, that baffled the skill of the most eminent physicians in the world. No matter what form the dreadful disease of SCROFULA and KING'S EVIL may have assumed, it can in no way be more safely and certainly arrested in its progress than by HENLEY'S GREAT BLOOD PURIFIER. Thousands have been swept into their graves, who had they made a timely use of the FOUNTAIN OF LIFE, might now be enjoying the blessings of life and health. It requires an article of real merit and intrinsic value to sustain itself. During the stern ordeal of public experiment the FOUNTAIN OF LIFE has stood the test trial and not been found wanting.

☞ Dr. HENLEY guarantees to CURE any case of SCROFULA or KING'S EVIL in the world, and eradicate the disease entirely from the system, or no charge made—provided they will secure him his pay when they are cured.

FOR REFERENCE:

I would refer you to L. L. Buck, of Portland, Oregon, and numbers of others, as to what a miraculous effect it had in a short time, in cases that had baffled the skill of physicians for years.

REDINGTON & CO'S

ESSENCE OF

## JAMAICA GINGER.

☞ This valuable preparation, containing, in a highly concentrated form, all the properties of the Jamaica Ginger, has become one of the most popular domestic remedies for all diseases of the stomach and digestive organs.

As a tonic, it will be found invaluable to all persons recovering from debility, whether produced by fever or otherwise, for, while it imparts to the system all the glow and vigor that can be produced by wine or brandy, it is entirely free from the reactionary effects that follow the use of spirits of any kind.

It is also an excellent remedy for females who suffer from difficult menstruation, giving almost immediate relief to the spasms that so frequently accompany that period.

It gives immediate relief to Nausea, caused by riding in a railroad car, or by sea-sickness, or other causes. It is also valuable as an external application for Gout, Rheumatism, Neuralgia, etc.

Sold by Druggists everywhere, and at wholesale by REDINGTON & CO., Agents for the Pacific Coast, San Francisco. je24d7m4p
